1,	<p>As feel it unacceptable to expect the average individual to access/read/depend the plethora of documents referred to in the "Summary leaflet". The exhibition at the council offices did little to help this.</p>
2,	<p>Most of the summary leaflets quoted appear to be actions that have been or should have been in operation already. What was read was a before & after comparison list so should what was changing for the better (EG. NEA seeks to protect tree/woodland/hedgerows. Why is this new, have you not been protecting those?</p>
3	<p>There appears a complete failure to recognise a top subject that is mentioned when people are concerned: - "Control of dogs on the beach". Due to other councils having the sense to ban dogs or insist on adequate control, dog owners appear here with 3, 4 or 5 animals a lot than run riot sometimes there are more animals on the beach than people. There will be no loss of business if owners fail to attend Llanwrporth, as many more people will attend knowing the beach is clean & safe, especially for children & the aged. Can ineffective control be monitored by a dog owner? The number of prosecutions over the years will testify to the effectiveness of that.</p>
4,	<p>The envisaged 'one-way' system for the main street in Llanwrporth is an idea to ease 3 months of heavy traffic in exchange for 12 months of inconvenience to locals.</p>

4 cont.	<p>Without very serious money invested in big re-construction the merging of traffic flows is a fantasy. It will increase traffic through the main street. I recommend you forget this one.</p> <p>I expect a lot of work has been put in by the people who produced these documents, but I feel there is a vein of political correctness running through the headlines. The scope seems too large, where a concentrated approach for main issues would be easier to get to grips with.</p> <p>When I asked a group of people what improvements should be made to our organisation, everything was on the table, nothing excluded. Every suggestion was put up for consideration. I then got the team to list their 10 best hopefuls. The results were combined and the 10 most voted for were the actions to deal with a solve. When finally done we repeated the exercise - it works</p> <div data-bbox="1189 1456 1444 1556" style="background-color: black; width: 160px; height: 45px; margin-left: auto; margin-right: 0;"></div> <div data-bbox="1396 1545 1556 1601" style="text-align: right;">25/5/22</div>
