1	Penhale Sands	Y	Natural beauty	Y	Y 280 ha / 2.8 km ²	<p>Iconic north coast dune landscape.</p> <p>Coastal Path.</p> <p>Too big to qualify as local green space under NPPF criteria. Landscape Character Assessment may identify it as a valuable landscape worthy of protection. Assume though that this area is all covered by the SAC (Special Area of Conservation).</p> <p>Noted in LLCA and CA15. Protected by SAC, SSSI, AGLV and SWCP setting as well as historic listings.</p> <p>Suggest including a policy similar to Local Plan Policy 23 covering all locally important designated landscapes.</p>	<p>Areas of ecological, landscape, biodiversity and geodiversity value</p> <p>Landscape character and landscapes of local significance</p> <p>Coastal management</p>

Landscape Character Assessment may identify it as a valuable landscape worthy of protection. Scheduled Monuments already have protection. Worth referencing in Heritage section though if particularly important locally. If managed by CWT, unlikely to see adverse (or any) development on the site anyway?</p> <p>This is a sensitive area as the approach from the Tollgate road across the dune landscape to the church and oratory with clear local recreational value. Church and Oratory already protected, area is AGLV and SSSI. Views will include intervisibility between the cross by the Church and the cross to the south as could be affected by any development around holiday park with another inland towards Gear Farm. Is quite distinctive landscape, will be commented on in LLCA.</p>	<p>Areas of ecological, landscape, biodiversity and geodiversity value</p> <p>Landscape character and landscapes of local significance</p> <p>Important views and vistas</p>

Worth considering wider area designation too covering Perran / Reen / Gear / Penhale Sands AND areas providing access to said Sands as a Landscape of Local Significance.
