Perranzabuloe
Neighbourhood Development Plan
Improving our Parish for all

Evidence Base: Heritage Assets

tirwel

Evidence Base: Heritage Assets

This document has been prepared to support the Perranzabuloe Neighbourhood Development Plan by tirwel on behalf of Perranzabuloe Parish Council based on heritage assets recorded online, those identified by the NDP Steering Group as a result of their community consultation process and those identified in the Local Landscape Character Assessment prepared to inform and support the NDP.

Information, opinions and advice within the document and provided to the client and their consultants in relation to the Heritage Assets document have been prepared and provided in good faith as an asset record drawing on guidance within the Heritage England NDP Advice Note 2019[i] and the Cornwall Council Neighbourhood Planning Toolkit notes on Historic Environment research tools. The opinions expressed are our true and professional bona fide opinions. This document has been prepared for sole use by the client for the purpose as stated. It must not be used for purposes other than intended, and must not be copied, altered or revised by others without tirwel's express written permission.

Evidence Base: Heritage Assets

1. Introduction

The historic environment is protected at a national level within National Planning Policy Framework[ii] (NPPF) chapter 16, and locally within Cornwall Local Plan[iii] Policies 2, 14, 17, 23, 24, 25, the explanatory text for Policy 24 providing detailed information relating to the consideration of Heritage Assets within the planning process.

This document forms part of the Evidence Base for the Perranzabuloe NDP providing support for heritage policies within the NDP and should be referred to for further detail and guidance in the preparation of development proposals and the appraisal or assessment of them to ensure key features of value are protected and enhanced. Assets included are considered to be of a particular quality, value at a local or wider level, or contain features of noted value, to a degree which merits their specific protection within the Plan, in addition to existing adopted policies. Absence from the list does not preclude an asset from protection within development proposals.

Heritage assets, taken to be A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest, were identified through a desk based exercise in line with guidance provided by Heritage England and Cornwall Council referring to publicly available registers and databases, a summary of these assets is provided within the report with links to records were available to avoid repetition. Covid-19 restrictions limited the extent of fieldwork and community engagement, a list of local heritage assets identified in the initial NDP Consultation process has also been included, further fieldwork including community led walkabout surveys may be required to understand the value and condition of none designated heritage assets and historic environments.

This record is intended to be used both to inform the design and appraisal of development proposals and to evaluate them during consultation and determination. NB: reference to this document is NOT intended to replace the requirement for detailed heritage assessment of a site's heritage assets and contribution to the wider historic environment of the area and likely effects of a proposed development on that baseline resource by an appropriately qualified and experience professional in line with the guidance provided by Heritage England. More information on the appropriate assessment of heritage assets within a development context can be found at:

- Cornishmining.org for areas within the Cornwall and West Devon Mining Landscapes World Heritage Site Area A7 St Agnes Mining District area.
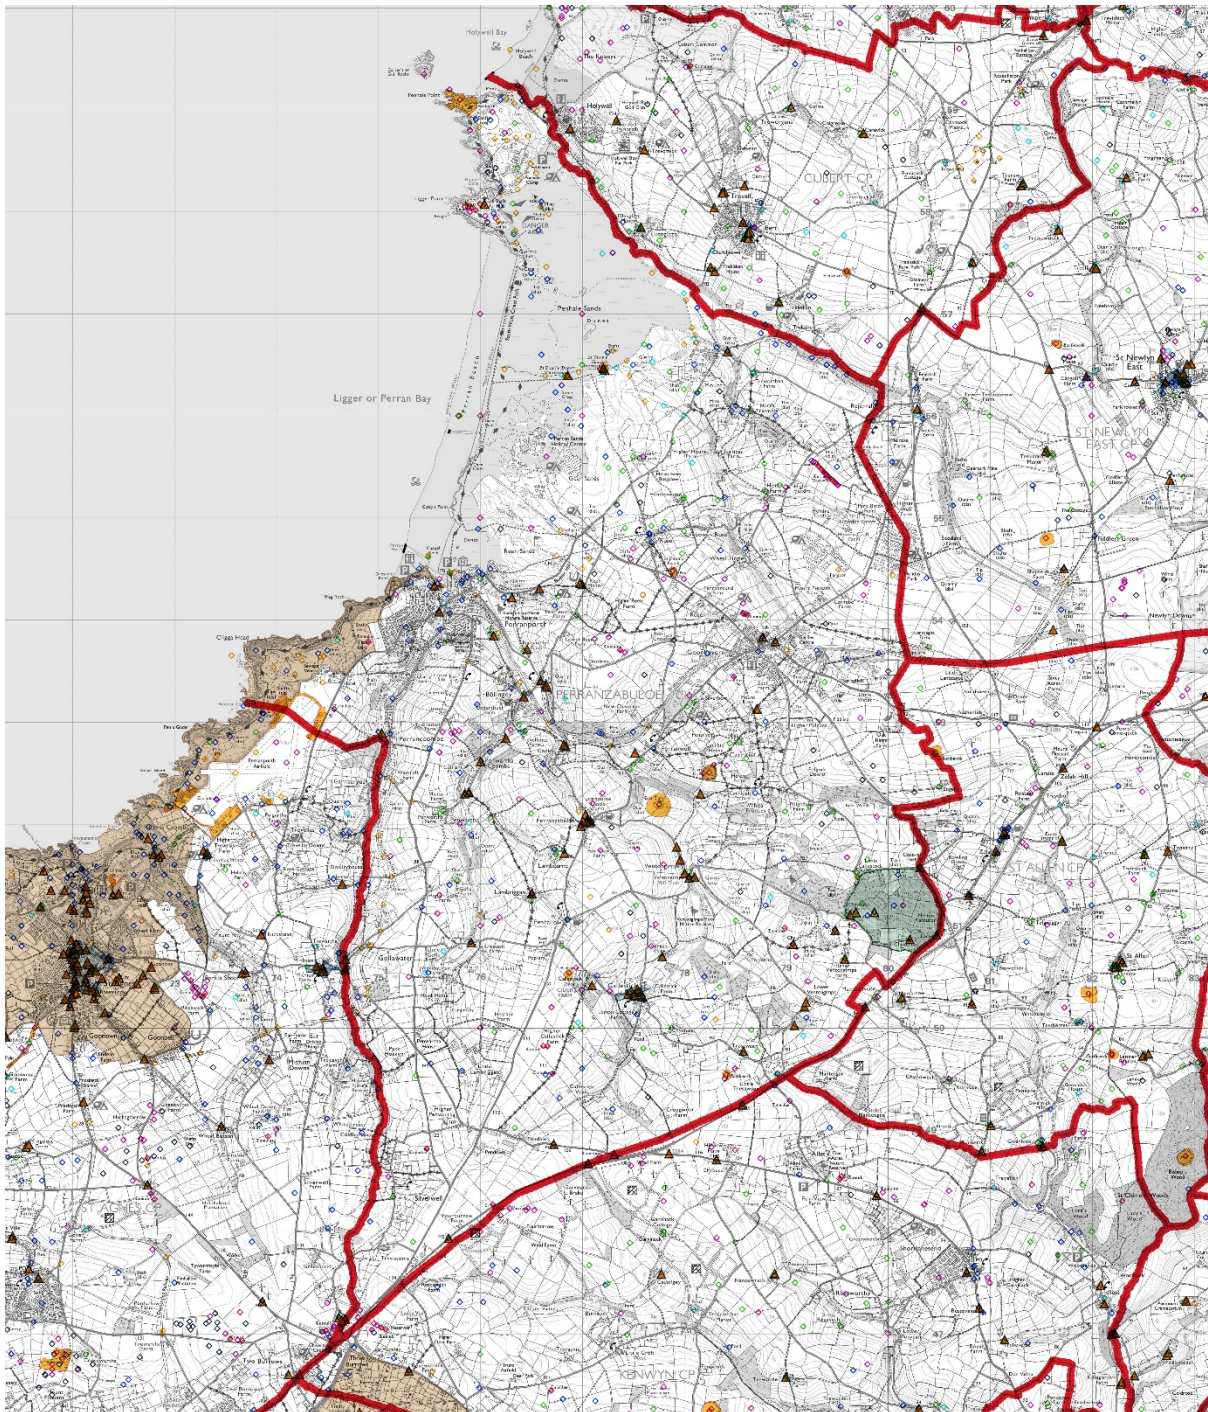

Evidence Base: Heritage Assets

- [Heritage England](#)'s website[iv] for general design and planning guidance as well as specific technical advice.
- Cornwall Council's [Conservation](#) team[v] which includes the Strategic Historic Environment Service, Cornwall Archaeological Unit and Conservation specialists with guidance online relating to development of sites which include or impact assets and their setting.

Map 1 shows the location of heritage assets across the NDP area as an illustration of the extent, distribution and range of records including World Heritage Site areas, Scheduled Monuments, Listed Structures, Registered Parks and Gardens, Conservation Areas and the Cornwall SMR points records.

Figures are included as supplementary information throughout the document where it is felt they assist interpretation of an asset's location and / or extents. [Cornwall Council's interactive mapping](#)[vi] provides an invaluable resource which should be referred to for precise locations and links to further information on the features of value for all levels of asset.

Evidence Base: Heritage Assets

Map 1: Location of recorded Heritage Assets across NDP Area

2. Existing recorded Heritage Assets within the Parish

### Cornwall and West Devon Mining Landscapes World Heritage Site Area A7 St Agnes Mining District

Figure 1: WHS Area 7 coverage within the Plan Area

Location and Extents:
Northern end of designated area continues from St Agnes Parish along the coastal strip to the south west of the NDP area, from Hanover Cove to Droskyn Point at the southern end of Perran Bay.

Citations & Information:
Citation on UNESCO World Heritage List and on the Heritage England database. Online information at www.cornwall.gov.uk and www.cornishmining.org.uk including Management Plan detailing OUV and WHS planning advice.

Related designations:
Cligga Head SSSI, RAF Perranporth Scheduled Monument, multiple entries in Cornwall Sites and Monuments Record.

Key features of value:

- o Iconic clifftop engine houses, tin works in narrow stream valleys and settlement pattern of granite mine workers cottages amongst fine public buildings and miners smallholdings

field patterns.

- o Character within NDP area includes coastal influence, views along coast (notes those west from vantage points between Cligga Head and Droskyn), C18-C19 tin and copper mining and ancillary industries, impact of industrialisation,

- o Walks taking in the exposed cliff workings and mineralogy along the 'stark' coastline of Cligga Head noted as a highlight.

Existing policy protection:

The WHS is an international level designation made and managed by UNESCO, as such the land within its boundary is protected at the highest policy levels. Within NPPF this includes paragraphs 184, 194, 200, 201, and 205. Within Cornall Local Plan the WHS is mentioned as a specific asset in Policies 14 Renewable Energy (in relation to the potential impacts of proposals on both the asset and its setting), and Policy 24 Historic Environment.

The WHS extends beyond Perranzabuloe's southern boundary into St Agnes Parish and is covered in the St Agnes NDP[vii] Policy 11. Proposals which affect land within either the WHS or its setting will be required to consider the provisions of both the Perranzabuloe and St Agnes NDPs to ensure they address issues at a local level.
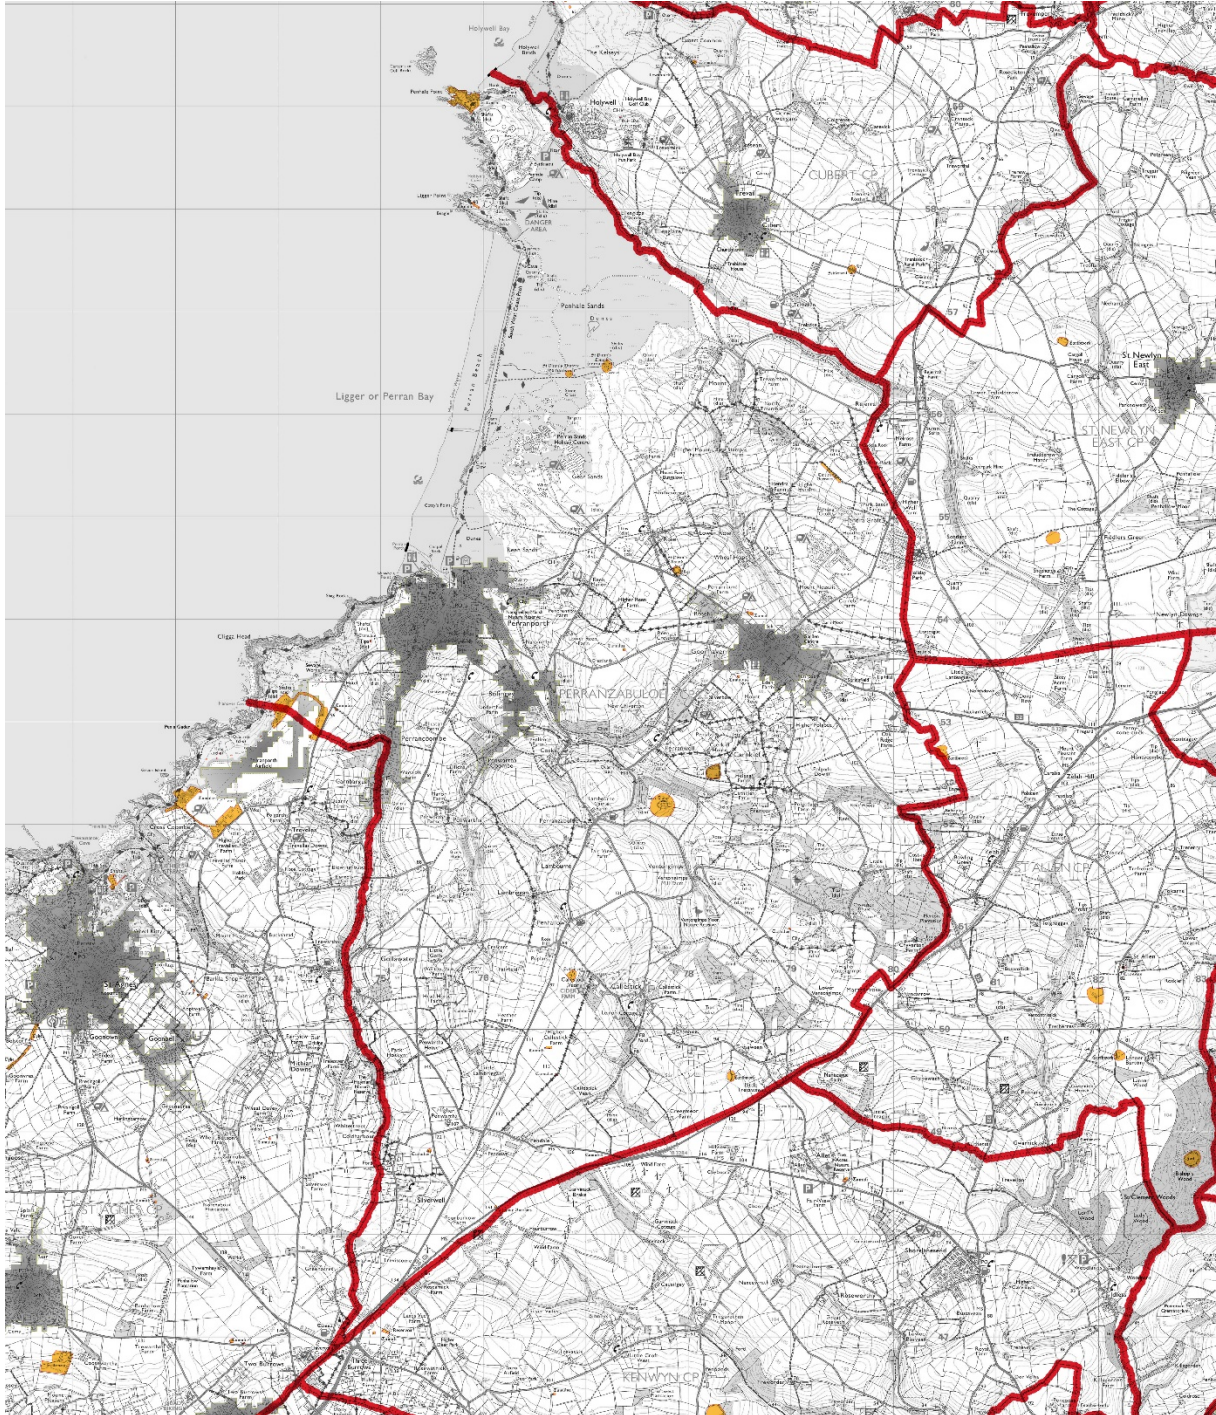

Evidence Base: Heritage Assets

Scheduled Monuments

Figure 2: Scheduled Monuments within the Parish

Location and Extents:

There are Scheduled Monuments throughout Perranzabuloe as shown in Figure 2, the majority

relate to the prehistoric or early medieval period with the exception of the remains within Trevellas

Evidence Base: Heritage Assets

Airfield which straddles the Parish's southern boundary. Table 1 in Appendix 1 lists all Scheduled Monuments as extracted from Cornwall Council Interactive Mapping, these are summarised below.

When considered as a whole asset the SMs within the Parish present a picture of its value as a historic landscape which far precedes the more widely understood or immediately recognisable heritage relating to its mining history, and which relates to the wider prehistoric landscape beyond its boundaries including sites such as St Agnes Beacon and Kelsey Head.

Related designations:
WHS, St Piran's Oratory Grade II Listing, St Piran's Church Listing multiple entries in Cornwall Sites and Monuments Record.

Key features of value:

- o Penhale Point Cliff Castle: Iron Age, incorporated into and to an extent protected by Wheal Golden post medieval mine workings and spoil heaps. Defended enclosure of 1ha, double line of landward defences with rock cut ditches across the neck of the promontory, excavations provided evidence of occupation around 100BC – AD90.

- o Ligger Point Bowl Barrows: Three Bronze Age Bowl Barrows aligned north west – south east overlooking Perran Bay. Partially excavated in 1950s, urns found in all three barrows, two held by Royal Cornwall Museum in Truro, third retained within private collection. Enable an understanding of funerary practices and cultural associations within specific areas within the landscape.

- o St Piran's Oratory and Cemetery: One of Perranzabuloe's most well known heritage sites, early Christian chapel within Gear Sands 1.5km inland established in C7 by St Piran following his arrival at Perranporth from Ireland and remaining in use until C11 or C12. Several skeletons and cist burials recorded during early C19 partial excavation and 1980 works which preceded the protective construction of an artificial sand dune over the remains. Became a pilgrim shrine in C15 as St Piran believed to have been buried in its cemetery. Construction, layout and scale shows similarities to Irish early Christian oratories and as such is also of value in wider understanding of the development of the faith. Also Grade II listed.

- o St Piran's Church and St Piran's Cross: Lying around 300m east of the Oratory this scheduling covers the remains of the second St Piran's Church in Perranzabuloe, the adjacent 2.4m high carved granite Celtic Cross and the enclosure, or lann, around them which was occupied by the church community and used as a burial ground. The Church is a typical C12-C13 cruciform style building roughly at the centre of the lann, the site being recorded as a Celtic monastery called Lanpiran in the Domesday Book though it was later reduced in status to the Parish Church. Its preservation without amendments over the following centuries is due to its location and issues with encroaching sand recorded from

1281 onwards, in 1804 it was largely dismantled and used to construct the current Grade II* Listed Parish Church in Perranzabuloe 4.4km to the south.

o   Higher Hendra Barrows: Twelve Bronze Age Bowl Barrows in a 250m north west – south east linear alignment along the ridge of a north facing spur of land with six still visible above ground the highest being 2.2m, the remainder are relatively low with four flanking another single barrow. Aerial photography indicates further barrows are yet to be confirmed. The site is of value for its buried archaeology and information that will provide on the cemetery and the landscape contemporary to it, as well as a prominent and large feature within the wider prehistoric Perranzabuloe landscape.

o   St Piran's Round: a late prehistoric round, comparatively small alongside Penhale Cliff Castle 4.9km to the north or Caer Dane 2.2km to the south with just one defensive enclosure which survives as a 3m high rampart the top of which was flattened to create a 2.5m wide walkway in the early medieval period when the site was adapted for use as a Plain an Gwarry or 'playing place' amphitheatre style site for the performance of medieval mystery and miracle plays. The Round is a useful example of the adaptation of then historic sites throughout history as well as for its buried archaeology relating to its original occupation.

o   Rosehill Farm Barrows: three barrows, two remaining above ground, in an east – west alignment on a ridge north of Goonhavern. Of value despite ploughing damage for site and landscape archaeology.

o   Higher Reen Barrow: positioned on the northern end of a south facing spur of land and originally one of a pair the other having been ploughed out.

o   Treworthal Barrow: positioned at the end of a north facing spur with land rising behind, approx. 625m south of Rosehill Farm Barrows, 1.6km south east of Higher Reen Barrow, and 935m north of Caer Kief. Suffered damage as a result of ploughing but still considered likely to hold site archaeology and is part of a wider prehistoric landscape.

o   Little Carnkief Cross: medieval cross 1.01m high inscribed with 'Nansmellyn' referring to the adjacent manor of the same period, likely to be a boundary marker and in its original location, considered likely to have remains of the historic land surface and human activity below ground around it.

o   Caer Kief Round: late prehistoric 1.4ha round with single rampart and ditch and single entrance located just below the summit of a south west facing spur of land between two tributaries of the Perranporth stream and across the valley from Caer Dane. Potential

continued use beyond prehistoric through an unfinished annexe, of most value for its condition, site archaeology and role in interpreting the wider local historic landscape.

o Caer Dane Hillfort: large late prehistoric multi enclosure fort on the summit of a hill surrounded by stream valleys and opposite Caer Kief. Its three defensive enclosures remain intact and above ground surrounding a well defined nucleus. The site's value lies in its own archaeology as well as its key role in the local prehistoric landscape, particularly the relationship with Caer Kief as well as the surrounding barrow sites.

o Polvenna Barrow: Bronze Age Bowl Barrow remaining as a low partially ploughed out mound in a prominent position on a north west facing spur between two streams.

o Tresawsen Hillfort: 3.8ha late prehistoric multi enclosure fort with two concentric defensive earthworks in relatively good condition which enables its interpretation in the landscape.

o Callestick Vean Barrow: Bowl Barrow unusually on relatively low lying land as the head of a tributary of the River Kenwyn, in relatively good condition. Of value for its low lying position.

o Higher Callestick: a single barrow 425m south west of Higher Callestick Farm on the eastern edge of a south facing spur between two streams with damage to one side and erosion at the base of the mound revealing the white quartzite or Spar stones which originally covered such structures to increase their prominence in the landscape, and two Bronze Age barrows 275m north of the farm which have been plough damaged located on the southern end of a spur between two streams. Both sites of value mostly for their landscape archaeology and construction.

o Callestock Veor Round and Hut Circles: located on a south western slopes on the shoulder of a ridge above Perranzabuloe the late prehistoric – Romano British Round appears to have been enclosed with timber palisade on the inner bank. Bronze Age – Roman hut circles are evident on aerial photography and geophysical survey results, and enclosures around them represent farmers' dwellings and are thought to be connected to further hut circles and enclosures outside the round. Of value for its condition and likely below ground remains which enable understanding of the site's construction and use, as well as its contribution to interpretation of the local and wider prehistoric landscape through its connection to nearby sites.

o Pendown Bell Barrow: a nationally rare form of Bronze Age funerary monument which often contain rich grave goods and are thus associated with aristocratic individuals, with

their style of construction incorporating a berm and ditch around the central mounds making them particularly visually impressive. Pendown is located on a north west facing spur of land overlooked by the group at Four Burrows some 900m to the south east.

- o Four Burrows: a group of four Bronze age bowl barrows straddling the Perranzabuloe – Kenwyn Parish boundary and the A30, on a hilltop. The site has been excavated historically with one barrow found to house a megalithic chamber with cremation urn, the site is suggested to be the surviving core of a nucleated barrow cemetery and is noted as of value for the potential information about the site as well as the landscape in which it was built.

- o Three Burrows: a large Bronze age bowl barrow with noted ploughing and antiquarian excavation damage but still standing at 3m high just 100m south of St Peter's Church and 400m west of three more (none scheduled) barrows with value in terms of landscape archaeology and the relationship between reuse of important sites across different time periods.

- o Relationship between assets of a similar, or related period, in terms of present day intervisibility and interpretation in understanding the area's use and perception by communities contemporary to the assets at a landscape level.

Existing policy protection:

Scheduled Monuments derive their protection from the Ancient Monuments and Archaeological Areas Act of 1979, scheduling as a mechanism for protection having begun in 1882 and being carried out by Heritage England to preserve a selection of nationally important archaeological sites. Monuments are selected on the basis of period, rarity, documentation and finds, group value, survival and condition, fragility and vulnerability, diversity, and potential, in all cases scheduling has to be considered to be the best means of protecting them.

Within the NPPF Scheduled Monuments are included in paragraphs 194 and 205. The Cornwall Local Plan covers their protection and management within the planning process in Policy 24.

Listed Structures

Location and Extents:

Listed structures are distributed across the Parish, tending to be located within or adjacent to settlements or long standing transport routes. Table 2 in Appendix 1 lists all Scheduled Monuments as extracted from Cornwall Council Interactive Mapping. There are no Grade I assets, 71 Grade II listed, 1 Grade II Listed Registered Park and Garden at Chyverton (see below), and 4 Grade II* listed

features. In several instances a number of listing relate to the same geographical site as the focus of the protection being architectural or structural tends to lead to separate designation of specific features. Examples include assets within the former Chyverton Estate which incorporates the main house, stables, lodge, farmhouse, park and gardens and a bridge, or the Parish Church of St Piran at Perranzabuloe and a number of the features within its graveyard.

Citations & Information:

For ease a table of listed structures is appended to this document, it was extracted from the information available through Cornwall Council's interactive mapping which should be referred to for individual location of assets, relationship to other features and links to citations.

Related designations:

Three of the assets relate to features also covered by Scheduled Monument status – St Piran's Church, the Cross adjacent to St Piran's Church, and St Piran's Oratory, several others have an overlap with Cornwall SMR records.

Key features of value:

[Heritage England](viii) explains the purpose of Listing to be on the basis of a features' architectural or historic merit and in order to bring it within the protection of the planning system, it expands

'The general principles are that all buildings built before 1700 which survive in anything like their original condition are likely to be listed, as are most buildings built between 1700 and 1850. Particularly careful selection is required for buildings from the period after 1945. Buildings less than 30 years old are not normally considered to be of special architectural or historic interest because they have yet to stand the test of time.'

It also notes that Listing does not prevent development, it provides a mean by which the effects of development on the feature of value can be controlled in the form of Listed Building consent, and states that features should be enjoyed and accessible where possible.

In many cases the geographical grouping of listed assets adds value in that it enables a preservation of their setting and enables a greater understanding or awareness of that site or area's historic development for example the listing of the Parish Church, its Vicarage and several features around the graveyard, the various features within the former Chyverton Estate, or the listing of several properties within Callestick which combine to add value overall as they contribute to the village's traditional character and protection with Conservation Area status.

Existing policy protection:

Listed Structures are included on the basis of nomination and approval by the Secretary of State for Digital, Culture, Media and Sport (DCMS) under section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990. Features are selected on the basis of their compliance with a set of principles[ix] which notes *'For the purposes of listing, a 'building' includes any structure or erection and a 'listed building' includes any object or structure: (a) fixed to it; or (b) within its curtilage which, although not fixed to it, forms part of the land and has done so since before 1st July 1948, unless the list entry expressly excludes such things.'* Principles include architectural interest, historic interest, group value, fixtures and features (in the case of buildings), character and appearance (in the case of Conservation Areas), age and rarity, national interest, aesthetic merits and selectivity.

Within the NPPF listed structures are included in paragraphs 184, and 194. The Cornwall Local Plan covers their protection and management within the planning process in Policy 24.

Registered Park and Gardens – Chyverton House

Location and Extents:

Chyverton House RPG, (Table 3 in Appendix 1) essentially the gardens and parkland associated with the former Chyverton Estate sits adjacent to the Parish's eastern boundary, within its own small valley between Zelah, Polgoda and Ventongimps with the plantations across its northern areas visible from the northern end of the Callestick Valley. The gardens are positioned to the north east of the house (screened from West Chiverton Mine by the house itself) leading down to a pond with weir and bridges, the parkland encircles the house which sits to its south western extents, much of the former parkland is now covered in woodland in varying condition.

Citations & Information:

Chyverton Park Grade II List No 1000512

Related designations:

Chyverton House Grade II*, Stables, Farm House, Lodge and a bridge (all Grade II listed), SMR Iron Age Chiverton Round, Bronze Age Menhir in field adjacent to south, Medieval settlement dated to 1291, the relocated St Piran's Holy Well at the western end of the pond, Chiverton Mine to north east of house, East Chiverton Mine on the northern boundary, gardens, and use of the House as a modern Military Camp.

Key features of value:

The Heritage England listing information provides the following chronology summary for Chyverton which set the garden as a primarily late C18 example, of a similar or slightly earlier period to the

main development of Tehidy (based on the date of the main cascade), Trelowarren, Enys, Carclew, Trewithen, Heligan, and several other estates associated with Cornwall's eldest landed families, with early C20 planting.

In the medieval period Chyverton was the property of the Arundell family, and subsequently passed to a tenant, John Rosogan. In 1724 it was purchased by John Andrew of Trevallance. Chyverton was inherited by his great-grandson, John Thomas, a lawyer from Truro who served as Vice-Warden of the Stanneries for thirty-four years. In the 1760s Thomas remodelled the existing house, and moved his business activities from Truro to Chyverton (Pett 1998). Some ten years later a park and an eyecatcher folly were created to complement the remodelled house. Gilbert (1820) noted that despite unpromising surroundings, 'by industry and expense, Chyverton displays many beauties, consisting of neat sheets of water, fine gardens, and thriving plantations'. In the early C19 the property passed by marriage to the Peter family. John Thomas Henry Peter (1810-73) married the daughter of John P Magor of Penventon, who in 1849 inherited Lamellan, Cornwall (qv). Chyverton remained in the Peter family until 1924 when it was sold to Treve Holman, who planted an extensive collection of rhododendrons and magnolias with the advice of Sir Harold Hillier (1905-85). After the Second World War Holman concentrated on extending his collection of magnolias, work continued by his son and daughter-in-law who succeeded to the property in 1959. Today (2000) Chyverton remains in divided private ownership.

It also notes the following main features of interest in terms of garden or designed / made landscape features within or relating to the designated area:

- o Course of predating surrounding roads altered to enable enclosure of the estate (1770 survey);

- o Views north-east from the house towards Tinkers Castle or Hunter's Tower, now obscured by vegetation;

- o Main drive enters from south east by C19 lodge, sweeps north and west through the park and Merton Plantation before dividing with one branch running north to the kitchen garden and service entrance and the other continuing across the lake to approach the house from the south east.

- o Walled kitchen garden to north of house (functional not aesthetic design feature along with late C18 stables);

- o Lake to north of house with Grade II* 1780 Bridge;

- o Late C18 Tinker's Castle (renamed Hunters Tower) folly / eyecather to north of the house at Cost – is – Lost.

- o Late C18 design having open paddocks and meadows at heart of estate, developed as a Pinetum in 1840s.

- o Informal ornamental tree and shrub planting across slopes rising to north of house behind lake begun around 1870, extended in 1920s with advice from sir Harold Hillier.

- o Pleasure grounds post 1945 collection of Magnolias.

Further detailed information is held within the Kresen Kernow archives and is a recommended source for the development of any restorative projects for the site.

Existing policy protection:
Inclusion on the Heritage England List protects Chyverton Park on the same basis as other listed assets under section 1 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

Within the NPPF listed structures are included in paragraphs 184, and 194. The Cornwall Local Plan covers their protection and management within the planning process in Policy 24.

Conservation Areas

Location and Extents:
Two Conservation Areas lie within the Parish, one at Callestick and the eastern section of the Mithian Conservation Area(the parish boundary running along the Perranporth Stream through the village) around the Rose in Vale County Hotel, these are listed in Table 3 in Appendix 1.

Citations & Information:
There is no Conservation Area Appraisal available for either area, presenting a potential NDP project. Conservation Area Appraisals are designed to record the key features of value within an area, including buildings, structures, planting, layout, as well as overall character. They are a useful tool in preparing and determining development proposals. On the basis of fieldwork it is presumed that both villages are designated by virtue of the concentration of older properties focused around a tight core at the junction of key routes through them.

Callestick

Evidence Base: Heritage Assets

First recorded as a settlement in 1201 with reference to a medieval chapel to its west around Mithian Farm (exact location unknown), Mithian's overall character features a few cob and thatch cottages but has a stronger tie to mining with rows of cottages and the presumed late C18 Miner's Arms pub at the village centre. The section within Perranzabuloe is defined by the wooded valley surrounding the grounds of the Rose in Vale which doesn't differ greatly from the OS 1880 mapping.

Related designations:

Key features of value:
Within each village are several listed structures and records on the local SMR, several citations for individual historic features note the requirement for further investigation to determine exact details.

- o Callestick

    - o Grade II C17 / C18 Elmsleigh and Jasmin Cottages,mid C18 Callestick Farm Cottage, late C18 Old Post Office, late C18 The Homestead, early C19 bridge, early C19 Callestick Farmhouse, and early C20 phone box.

    - o Modern cast iron fingerpost.

    - o Early medieval Bethaw Chapel at central junction by Callestick Farmhouse claimed to have been used by St Piran for preaching.

    - o Another medieval chapel in the grounds of Caradon.

    - o C18 house / old post office used by John Wesley for early Methodist meetings.

    - o Early C19 Smithy to south east of village, now Denver Cottage.

- o Mithian

    - o Medieval settlement dated to 1201, recorded at junction of lanes outside Miner's Arms.

    - o Medieval chapel to north west of Mithian Farm.

    - o Grade II Miner's Arms pub, presumed from a date in plasterwork to date to around 1780.

    - o Grade II Mithian Manor House (now converted to residential dwellings) dating to C17 with tunnel to Miner's Arms, original plaster ceiling and oak staircase remaining.

- o Early Grade II C18 bridge over Perranporth Stream (within Perranzabuloe) immediately west of road junction.

- o Early C18 corn Mill and leats to the north of the Rose in Vale grounds on the Perranporth stream.

- o C18 Grade II Old Post Office and Whitewalls Cottage, Tuckaway Thatch cottage,

- o C18 Grade II* Rose in Vale former country house now hotel.

- o Modern period cast iron fingerpost at village centre.

Existing policy protection:
Relevant references in NPPF include paragraph 186, footnote 62, para 200 and para 201. Within the Cornwall Local Plan Conservation Areas are protected within Policy 24 in order to maintain their special character and appearance.

Cornwall Sites and Monuments Record

Location and Extents:
The 583 SMR records are scattered across the Parish and listed in Table 4 in Appendix 1. Mines and Engine Houses are summarised separately in Table 5 and Table 6 respectively). They range from specific structures, features or single buildings to field systems, hillforts and early settlements.

Citations & Information:
Links to citations are contained within Table 4 as well as the Cornwall Council online mapping and should be referred to for specific details.

Related designations:
Many of the records relate to features also protected within higher level designations – WHS, Scheduled Monuments, Listed Structures etc. The majority lie outside of other designations and as such are at a degree of risk, reliant on development proposals identifying and recording them as part of the design and construction process.

Key features of value:
Features of value are too numerous to describe individually, in fact the greatest value of the SMR is perhaps collective in its illustration of the development and occupation of the Parish from prehistoric to modern periods and the provision of more detail relating to specific larger sites. Collation of this value and further research into specific features would be an appropriate NDP project.

Evidence Base: Heritage Assets

Existing policy protection:
Records within the SMR are afforded a general level of protection with Cornwall Local Plan Policy 24,

with additional protection if they fall within a higher level designation.

3. Relationship between Perranzabuloe Heritage Assets evidence base and Neighbourhood Development Plan (NDP)

Policy

Heritage is an intrinsically valued area, though it is often only the most visible or well preserved features which are noticed, the 'sense of place' or 'time depth' within an area is often referred to in one form or another when asking residents or visitors to describe what they consider of importance within it. It provides a connection to a landscape through the contemporary community's relationship with the remnants of previous occupation as studied in more depth in Philip Marsden's Cornwall based Rising Ground[x]. It is also an aspect which can be viewed negatively where it is seen to hinder or stifle new development required to retain a living landscape as part of sustainability. As such the policies within the NDP seek to preserve the past in a way which enables the future and where development enables this it will be supported.

The Heritage section of the NDP sets its Aim as to support opportunities to improve and enhance what is special about an asset through development and change, within the context of protection and not compromising the value of the asset or other policies in this Plan

As such, all the Policies within the section relate in some way to active heritage conservation and positive management, they are:

- o HAE1. Heritage Assets and the Historic Environment
- o HAE2. Signs and Advertising
- o HAE3. Conservation Areas and none designated historic settlements
- o HAE4. Historic landscape character
- o HAE5. Cornwall and West Devon WHS Area A7 St Agnes Mining District
- o HAE6. St Piran's Church and St Piran's Oratory
- o HAE7. Penhale Camp and assets within its boundaries and setting
- o HAE8. Perranzabuloe's Prehistoric Assets and Landscape
- o HAE9. Newly Identified Heritage Assets and Archaeological Remains

Preparation of Planning submissions

it is expected that all planning submissions for development within the Parish will have been prepared with reference to the NDP and its supporting Evidence Base documents of which the Heritage Assets summary is one. All final proposals should demonstrate the way in which they have been informed by, and respond to, any historic features or their setting in a manner that is appropriate to the nature and scale of the proposed development.

It is expected that for all proposals which qualify as Major Development, are within a designated area or its setting and are greater than 100m^2 floorspace, provide 10 or more residential dwellings (separately or as a whole), and which may be likely to have a substantial impact on the heritage value of features within the site or the setting of features relating to it, a Heritage Appraisal of a level of detail proportionate to the development will have been carried out by a suitably qualified professional, and that the findings of this will be incorporated in the final proposals in a manner which demonstrates that the historic value has been assessed and understood using best practice methods in line with NPPF para.172.

Reference should be made to Cornwall and West Devon Mining Landscape World Heritage Site SPD, and Cornwall Building Stone and Slate Guide, and when published the Distinctiveness Guide, and Cornwall Materials Guide. The Cornwall Design Guide and Perranzabuloe Design Guide for Main Settlements, also provide useful historic development and design styles information. Development outside the main settlement areas assessed within the Design Guide should demonstrate consideration of the historic character of the closest adjacent settlement – be that one of the three, or a village, hamlet or farmstead – in its layout and design.

In this way the heritage of the Parish should be used to positively direct sensitive and well-designed development which enhances the area overall.

Evaluation of Planning Applications

Policies relating to heritage assets will be referred to in the review of all planning submissions within the Parish to ensure that development is policy compliant and beneficial to the area. Consideration will also be given to the criteria of the and WHS and the requirements relating to Listed Building Consent and Conservation Area Approvals. Development within the WHS or the setting of other designated features will be supported where (subject to the tests of exceptional circumstances) it can be demonstrated that the development is in the public interest as set out in national policy,

proposals demonstrate how they are in accordance with the weight afforded to the WHS's landscape and site level significance in national policy, meet the aims and objectives of the WHS Management Plan and the NDP Policies and they have appropriate regard to the conservation and maintenance of the Parish's historic record on a site and landscape basis.

Future proposed development in Perranzabuloe NDP area will be assessed against heritage policy, and, once completed, the Local List. This summary document aims to provide a basis for identifying potential records within a site and its setting and the ability to research the value of these as part of an appropriate and proportionate Heritage Appraisal in order to demonstrate that any harm resulting from the proposals has been avoided or successfully mitigated.

Projects

A number of potential projects have been identified in the course of preparing the Heritage Assets summary which should be considered as a starting point for further community input and engagement including:

o Collaboration between the Local History Group, local community and Cornwall's Heritage team to collate and research a 'Local List' with accompanying photographic record as an interactive gazetteer, utilising the potential to run survey and recording projects as resources for local schools, colleges or related higher education courses, taking Tamblyn's Way as an example pilot project.

o Proactive and sensitive restoration of locally valued features such as Tamblyn's Way in Perranporth, Chacewater and Newquay Branch Railway, Penwartha Dame School, Bolingey Bone Mill etc., to enable contemporary use and enjoyment in a manner which does not result in harm to heritage value.

o Development of app based and physically waymarked trails that will enable increased enjoyment and understanding of the area's heritage based on period or area in a way which engages the permanent as well as tourist community.

o Working with landowners and farmers to increase awareness of heritage assets on their land and the appropriate management practices to ensure value is retained.

Evidence Base: Heritage Assets

Appendix 1: Asset record tables

All data extracted from a Parish polygon search of Cornwall Council interactive mapping which should be referred to for location and relationship with other assets.

MCO21661	LAMBRIGGAN - Prehistoric enclosure	Prehistoric	CROPMARK	An enclosure, 75m by 51m and roughly oval in shape, visible on aerial photographs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO21661&resourceID=1020
MCO32509	LAMBRIGGAN - Undated field boundary	Undated	EXTANT STRUCTURE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32509&resourceID=1020
MCO62140	LANGARTH - C17 road	Post Medieval	EXTANT STRUCTURE	Extant road from Bissoe to Marazanvose that included a stretch running from what is now Threemilestone to Langarth, mapped by Joel Gascoyne in 1699	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO62140&resourceID=1020
MCO3025	LIGGER POINT - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	A dubious barrow visible as an amorphous mound.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3025&resourceID=1020
MCO3026	LIGGER POINT - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	The site of a possible barrow in a group on Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3026&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO3027	LIGGER POINT - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	One of a linear barrow group running along the ridge of the headland at Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3027&resourceID=1020
MCO3028	LIGGER POINT - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	One of a linear barrow group running along the ridge of the headland at Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3028&resourceID=1020
MCO3029	LIGGER POINT - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	One of a linear barrow group running along the ridge of the headland at Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3029&resourceID=1020
MCO3030	LIGGER POINT - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	One of a group of barrows identified by Penna in 1950 which may be a spoil heap.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3030&resourceID=1020
MCO3031	LIGGER POINT - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	One of a group of barrows identified by Penna in 1950 which may be a spoil heap.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3031&resourceID=1020
MCO892	LIGGER POINT - Bronze Age findspot	Prehistoric	FIND	An urn and further sherds were found in one of the barrows on Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO892&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO6556	LIGGER POINT - Iron Age cliff castle, Romano British cliff castle	Prehistoric	DOCUMENTARY EVIDENCE	An alleged cliff castle identified by a low bank which is more likely to be a denuded field boundary than a rampart.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO6556&resourceID=1020
MCO32 796	LIGGER POINT - Modern gun emplacement	Modern	CROPMARK	Six circular features, each approximately 7m across, are visible on a vertical aerial photograph taken in 1946.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32796&resourceID=1020
MCO32 786	LIGGER POINT - Undated field system	Undated	CROPMARK	Traces of a banked field system are visible as cropmarks on vertical aerial photographs in the vicinity of Penhale Mine at Ligger Point.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32786&resourceID=1020
MCO30 32	LISKEY HILL - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	One of a group of at least four barrows on Liskey Hill.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3032&resourceID=1020
MCO30 33	LISKEY HILL - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	One of a group of at least four barrows on Liskey Hill.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3033&resourceID=1020
MCO30 34	LISKEY HILL - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	One of a group of at least four barrows on Liskey Hill.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3034&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO32504	LISKEY HILL - Bronze Age barrow	Prehistoric	CROPMARK	A plough-levelled barrow, visible as a cropmark on a vertical aerial photograph.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32504&resourceID=1020
MCO8186	LITTLE CALLESTICK - Iron Age round, Romano British round	Prehistoric	CROPMARK	The name 'Peden Geer' suggests the site of a round. A rectilinear ditched enclosure, 70m by 65m, with a south-east facing entrance is visible on air photos.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO8186&resourceID=1020
MCO32525	LITTLE CALLESTOCK - Iron Age round, Romano British round	Prehistoric	CROPMARK	Cropmarks of what appears to be a prehistoric settlement enclosure with associated ditches, enclosures and pits, visible as a cropmark on vertical aerial photographs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32525&resourceID=1020
MCO10025	LITTLE CALLESTOCK - Medieval chapel	Medieval	DOCUMENTARY EVIDENCE	The ruins of a chapel are recorded by Borlase at Little Callestock.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO10025&resourceID=1020
MCO10026	LITTLE CALLESTOCK - Medieval chapel	Medieval	DOCUMENTARY EVIDENCE	The field-name 'Chapel Field' suggests the site of a chapel but there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO10026&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO55 778	LITTLE CALLESTOCK - Modern signpost	Modern	EXTANT BUILDING; CAST IRON	A Bartle & Sons of Brea, cast iron fingerpost survives on the SW side of unclassified road junction SW of Little Callestock.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO55778&resourceID=1020
MCO8189	LITTLE CARNKIEF - Iron Age round, Romano British round	Prehistoric	DOCUMENTARY EVIDENCE	The field-name 'Round Field' suggests the site of a round but there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO8189&resourceID=1020
MCO32 358	LITTLE WATER - Undated enclosure	Undated	CROPMARK	Cropmarks of what appears to be an oval ditched enclosure, 79m by 56m, are visible on vertical aerial photographs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32358&resourceID=1020
MCO32549	LOWER ROSE - Medieval field system, Post Medieval field system	Medieval	CROPMARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32549&resourceID=1020
MCO32529	LOWER VENTONGIMPS - Prehistoric enclosure, Undated enclosure	Prehistoric	CROPMARK	A small rectilinear, banked enclosure, 42m across, is visible as a cropmark on vertical aerial photographs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32529&resourceID=1020

MCO16 136	PENHALLOW - Medieval settlement	Mediev al	DOCUM ENTARY EVIDEN CE	The settlement of Penhallow is first recorded in 1334.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO16136&resourceID=1020
MCO32 518	PENHALLOW - Modern radio station	Modern	DEMOLI SHED STRUCT URE	A World War II radio mast is visible on vertical aerial photographs taken in 1944.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO32518&resourceID=1020
MCO54 486	PENHALLOW - Modern radio station	Modern	EXTANT STRUCT URE	A World War II radio mast is shown on the modern OS Mastermap.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO54486&resourceID=1020
MCO9220	PENHALLOW - Post Medieval blacksmiths workshop	Post Medieval	DOCUME NTARY EVIDENCE	Null	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO9220&resourceID=1020
MCO21747	PENHALLOW DOWNS - Iron Age enclosure, Romano British enclosure	Prehistoric	DOCUMENTA RY EVIDENCE	Thomas recorded the traces of an "angular entrenchment", about 0.4 hectares, just north of Penhallow; the site is not known and there are no remains.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO21747&resourceID=1020
MCO32 78	PENPILLO - Bronze Age barrow	Prehisto ric	DOCUM ENTARY EVIDEN CE	'Creeg Penpillo', recorded in the C17 as a parish boundary marker.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO3278&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO6736	PENWARTHA - Prehistoric lithic scatter	Prehistoric	FIND	A collection of flints of Mesolithic - Bronze Age date found in the vicinity of Simon's Stone Farm.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO6736&resourceID=1020
MCO53058	PENWARTHA COOMBE - Post Medieval school	Post Medieval	EXTANT STRUCTURE	Board School, built 1878 (datestone). Killas brought to course, granite dressings.U-plan dry Delabole slate roof with gable ends at the front. Rubble lateral stacks with brick shafts.Plan: U-shaped plan with projecting wing on either side.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO53058&resourceID=1020
MCO32515	PENWORTHA - Bronze Age barrow	Prehistoric	CROPMARK	A group of four possible barrows, visible as cropmarks on aerial photographs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32515&resourceID=1020
MCO56744	PENWORTHA - C20 signpost	Modern	DOCUMENTARY EVIDENCE	The site of a cast iron fingerpost on the SE corner of the road junction off the B3284 to Penwartha Coombe.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO56744&resourceID=1020
MCO32512	PENWORTHA - Early Medieval field system	Early Medieval	CROPMARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32512&resourceID=1020
MCO10110	PENWORTHA - Medieval chapel	Medieval	DOCUMENTARY EVIDENCE	Remains of a chapel at Penwortha are recorded in 1710; it was possibly converted to a house but there are now no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO10110&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO32513	PENWORTHA - Medieval field system, Post Medieval field system	Medieval	CROPMARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32513&resourceID=1020
MCO16281	PENWORTHA - Medieval settlement	Medieval	DOCUMENTARY EVIDENCE	The settlement of Penwortha is first recorded in 1189.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO16281&resourceID=1020
MCO48352	PENWORTHA - Post Medieval bridge	Post Medieval	EXTANT STRUCTURE	An early-mid C19 road bridge over a stream survives north-east of Penworths.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO48352&resourceID=1020
MCO32514	PENWORTHA - Prehistoric enclosure, Undated enclosure	Prehistoric	CROPMARK	A roughly circular feature is visible as a cropmark on a vertical aerial photograph.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32514&resourceID=1020
MCO48353	PENWORTHA COOMBE - Post Medieval bridge	Post Medieval	EXTANT STRUCTURE	An early C19 road bridge survives at Penwortha Coombe.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO48353&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO28 604	PERRAN - Post Medieval almshouse	Post Mediev	EXTANT STRUCT URE	Perran Almshouses, possibly on the site of an earlier lazar house	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO28604&resourceID=1020
MCO61 652	PERRAN CAMP - C20 assault course	Modern	DOCUM ENTARY EVIDEN	Site of a C20 assault course, part of the Penhale Army Camp. This feature was removed in 2003	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61652&resourceID=1020
MCO61 655	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCT URE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61655&resourceID=1020
MCO61 656	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCT URE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61656&resourceID=1020
MCO61 657	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCT URE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61657&resourceID=1020
MCO61 658	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCT URE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61658&resourceID=1020

Evidence Base: Heritage Assets

MCO61659	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61659&resourceID=1020
MCO61660	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61660&resourceID=1020
MCO61661	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61661&resourceID=1020
MCO61662	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61662&resourceID=1020
MCO61663	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61663&resourceID=1020
MCO61664	PERRAN CAMP - C20 boundary stone	Modern	EXTANT STRUCTURE	Extant C20 boundary stone marking the limit of the Penhale Army Camp	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61664&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO61 669	PERRAN CAMP - C20 embankments	Modern	EXTANT STRUCTURE	Two extant roughly rectangular hollows identified from aerial photos, likely to be associated with military activity	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61669&resourceID=1020
MCO61 667	PERRAN CAMP - C20 military building	Modern	DEMOLISHED BUILDING	Extant C20 concrete base for a military building surrounded by earthen banks	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61667&resourceID=1020
MCO6164 9	PERRAN CAMP - Modern memorial	Modern	EXTANT STRUCTURE	Extant Modern memorial plaque, now decommissioned, dedicated to the memory of the 22 people killed in the bombing of Penhale Camp on July 7 1940	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61649&resourceID=1020
MCO61 666	PERRAN CAMP - World War Two bomb crater	Modern	EXTANT STRUCTURE	A series of extant hollows have been classified as probable World War Two bomb craters	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61666&resourceID=1020
MCO61 650	PERRAN CAMP - World War Two gun emplacement	Modern	EXTANT STRUCTURE; CONCRETE	Extant concrete base of a circular World War Two gun emplacement	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61650&resourceID=1020
MCO6166 5	PERRAN CAMP - World War Two gun emplacement	Modern	EXTANT STRUCTURE	Extant concrete base of a World War Two structure on the western-most of the three barrows on Ligger Point, presumably for a gun emplacement	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61665&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO61651	PERRAN CAMP - World War Two munitions store	Modern	EXTANT BUILDING; BRICK	Extant World War Two munitions store	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61651&resourceID=1020
MCO61654	PERRAN CAMP - World War Two pillbox	Modern	EXTANT BUILDING	Extant rectangular World War Two pillbox	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61654&resourceID=1020
MCO61668	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCTURE	Extant numerous short lengths of World War Two ditches (straight and right angled). These features are thought likely to be practice slit trenches and bomb craters	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61668&resourceID=1020
MCO61670	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCTURE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61670&resourceID=1020
MCO61671	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCTURE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61671&resourceID=1020
MCO61672	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCTURE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO61672&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO61 673	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCT URE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO61673&resourceID=1020
MCO61 674	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCT URE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO61674&resourceID=1020
MCO61 675	PERRAN CAMP - World War Two slit trenches	Modern	EXTANT STRUCT URE	Extant World War Two slit trenches are visible at this point on aerial photos	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO61675&resourceID=1020
MCO53864	PERRAN COOMBE - Post Medieval milestone	Post Medieval	EXTANT STRUCTURE	A milestone survives on the west side of the B3284 east of Perran Coombe and it stands in the highway verge - TO PERRANPORTH 2 MILES TO TRURO 7 MILES. Replica metal plates attached in the Summer of 2015.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO53864&resourceID=1020
MCO29 348	PERRAN COOMBE - Post Medieval streamworks	Post Mediev	DOCUM ENTARY EVIDEN	Null	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO29348&resourceID=1020
MCO33 08	PERRAN ROUND - Bronze Age barrow	Prehisto ric	DOCUM ENTARY EVIDEN	The site of a barrow recorded by Thomas in 1851.	http://www.heritagegateway.org.uk/Gateway/Resul ts_Single.aspx?uid=MCO3308&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO3309	PERRAN ROUND - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	The site of a barrow recorded by Thomas in 1851.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3309&resourceID=1020
MCO1158	PERRAN SANDS - Iron Age findspot	Prehistoric	FIND	Iron age sherds found on Penhale Sands	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO1158&resourceID=1020
MCO1161	PERRAN SANDS - Iron Age findspot	Prehistoric	FIND	A sherd of pottery was found in the vicinity of a hearth described by Harding (b1). Its excact location is not known and its date is not very definite.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO1161&resourceID=1020
MCO1159	PERRAN SANDS - Undated findspot	Undated	FIND	Some sherds of unknown type and date have been found on Penhale Sands.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO1159&resourceID=1020
MCO12409	PERRAN ST GEORGE - Post Medieval mine	Post Medieval	DOCUMENTARY EVIDENCE	Also known as Perran and Great St Goerge Mine, Great St George and Droskyn, and Perran and Great Wheal Leisure, this was a large sett stretching along the coast for over a mile and a half, producing copper and tin .	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12409&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO12410	PERRAN ST GEORGE UNITED - Post Medieval mine	Post Medieval	EXTANT STRUCTURE	Perran St George United worked in the first half of the C19, but the Great St George mine is first mentioned in 1598.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12410&resourceID=1020
MCO12411	PERRAN UNITED - Post Medieval mine	Post Mediev	DOCUMENTARY EVIDENCE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12411&resourceID=1020
MCO12413	PERRAN WHEAL ALFRED - Post Medieval mine	Post Mediev	DOCUMENTARY EVIDENCE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12413&resourceID=1020
MCO12414	PERRAN WHEAL GEORGE - Post Medieval mine	Post Mediev	EXTANT STRUCTURE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12414&resourceID=1020
MCO12415	PERRAN WHEAL JANE - Post Medieval mine	Post Mediev	EXTANT STRUCTURE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12415&resourceID=1020
MCO29102	PERRANCOOMBE - Post Medieval corn mill	Post Mediev	DOCUMENTARY EVIDENCE	A corn mill at Perrancoombe is recorded on the Tithe map of 1841.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO29102&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO56743	PERRANPORT - C20 signpost	Modern	DOCUMENTARY EVIDENCE	The site of a signpost on the junction of Bolingey Road and B3284 south of Perranporth.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO56743&resourceID=1020
MCO3310	PERRANPORTH - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	The remains of a barrow first recorded by Thomas in 1850.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3310&resourceID=1020
MCO3311	PERRANPORTH - Bronze Age barrow	Prehistoric	DOCUMENTARY EVIDENCE	The site of a barrow recorded in 1850 of which there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3311&resourceID=1020
MCO48489	PERRANPORTH - C18 house, Post Medieval fish cellar	Post Medieval	DEMOLISHED BUILDING; DOCUMENTARY EVIDENCE	An extant large detached building of aslar masonry construction with some rendering, designed by Silvanus Trevail known as 'Droskyn Castle', possibly built on the site of a former Post Medieval fish cellar.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO48489&resourceID=1020
MCO58802	PERRANPORTH - C19 Convalescent Home	Post Mediev	EXTANT BUILDING	C19 extant Convalescent Home built on bequest of John Passmore Edwards, now converted into residential apartments called Nampara Court.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO58802&resourceID=1020
MCO57503	PERRANPORTH - C19 fish cellar	Post Medieval	DEMOLISHED BUILDING	The C19 site of the relocated fish cellars operated by ÔÇ£Miners Seining CompanyÔÇØ on the eastern side of Droskyn Point, now occupied by a Hotel.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO57503&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO57505	PERRANPORTH - C19 fish cellar	Post Medieval	DEMOLISHED BUILDING	The site of a C19 fish cellar at Perranporth operated by the ÔÇ£FarmersÔÇÖ Seining CompanyÔÇØ. Not certain whether any part of building remains extant	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO57505&resourceID=1020
MCO57506	PERRANPORTH - C19 fish cellar	Post Medieval	DEMOLISHED BUILDING; DOCUME	The approximate site of a C19 fish cellar at Perranporth operated by the ÔÇ£Love's Seining CompanyÔÇØ. The site was later redeveloped as a bus station	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO57506&resourceID=1020
MCO57507	PERRANPORTH - C19 fish cellar	Post Medieval	DEMOLISHED BUILDING	The site of a C19 fish cellar in Perranporth operated by the ÔÇ£Union Seining CompanyÔÇØ. Not certain whether any part of the building remains extant	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO57507&resourceID=1020
MCO58151	PERRANPORTH - C20 tidal swimming pool	Modern	EXTANT STRUCTURE	A small tidal swimming pool dating to the mid-C20 survives at Chapel Rock, Perran Beach.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO58151&resourceID=1020
MCO32307	PERRANPORTH - Late C19 early C20 nonconformist chapel, Sunday school	Post Medieval	EXTANT STRUCTURE	Late C19 early C20 nonconformish chapel and attached Sunday School to the rear.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32307&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO9662	PERRANPORTH - Medieval bridge, Post Medieval bridge	Medieval	EXTANT STRUCTURE	At footbridge survives at Perron, or Ponsleggo, or Ponslusson. Ponslusson is recorded in 1590 and still survives.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO9662&resourceID=1020
MCO10114	PERRANPORTH - Medieval chapel	Medieval	DEMOLISHED STRUCTURE	The site of Chapel-an-Barder on Chapel Rock.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO10114&resourceID=1020
MCO56199	PERRANPORTH - Modern air raid shelter	Modern	EXTANT STRUCTURE	A Second World War air raid shelter under a bridge at the northern edge of Perranporth airfield.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO56199&resourceID=1020
MCO56354	PERRANPORTH - Modern air raid shelter	Modern	EXTANT STRUCTURE	A Second World War air raid shelter at the northern edge of Perranporth airfield.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO56354&resourceID=1020
MCO55472	PERRANPORTH - Modern aircraft hangar	Modern	DEMOLISHED BUILDING	The surviving remains of aircraft hangars, six blister type with one over-blister variant and one Teeside (MCO55463) that serviced the four flights based at Perranporth.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO55472&resourceID=1020
MCO42957	PERRANPORTH - Modern auxiliary hide	Modern	DEMOLISHED STRUCTURE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO42957&resourceID=1020

Evidence Base: Heritage Assets

MCO2524 8	ST PIRANS ORATORY - Early Medieval monastery	Early Medieval	DEMOLISHED STRUCTURE	A land owning monastery existed at Perranzabuloe before 1066. It was abolished in about 1805.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO25248&resourceID=1020
MCO58 82	ST PIRANS ORATORY - Medieval cross	Medieval	DEMOLISHED STRUCTURE	A latin cross head now lies close to Perran Old Church.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO5882&resourceID=1020
MCO1447	ST PIRANS ORATORY - Romano British findspot	Romano British	FIND	A heavy silver ring and coin of Roman date were found close to St Pirans's oratory	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO1447&resourceID=1020
MCO117	ST PIRANS ROUND - Iron Age/Romano British round, Medieval plain an gwarry	Prehistoric	EXTANT STRUCTURE	Perran Round, re-used as a playing place in the medieval period, is a circular arena 40m across, surrounded by an earth and stone bank 3m high, with external ditch.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO117&resourceID=1020
MCO35 56	THREE BURROWS - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	A large barrow 400m west of the three barrows.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3556&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO62141	THREEMILESTONE - C18 road	Post Medieval	EXTANT STRUCTURE	Extant road, mapped in 1748 by Martyn who shows the road from Three Burrows to what is now Threemilestone as open-sided, not hedged in, and towards the eastern edge of a large area of open ground, later to be called Polstraires Down. This road joined the	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO62141&resourceID=1020
MCO5935	TREAMBLE - Medieval cross	Medieval	DEMOLISHED STRUCTURE	The name 'Crows and Carn Mine' is suggested to imply the possible site of a cross but there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO5935&resourceID=1020
MCO32868	TREAMBLE - Medieval field system, Post Medieval field system	Medieval	CROPMARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO32868&resourceID=1020
MCO17061	TREAMBLE - Medieval settlement	Medieval	DOCUMENTARY EVIDENCE	The settlement of Treamble is first recorded in 1316 when it is spelt "Taranbol".	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO17061&resourceID=1020
MCO29119	TREAMBLE - Post Medieval corn mill	Post Medieval	DOCUMENTARY EVIDENCE	Treamble mill is recorded on the Tithe map of 1841 and on the 1st Edition 1:2500 OS map of 1879.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO29119&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO53 927	TREAMBLE - Post Medieval goods station	Post Mediev	EXTANT STRUCT URE	The Treamble terminus of the line from Shepherds.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO53927&resourceID=1020
MCO12 607	TREAMBLE - Post Medieval mine	Post Mediev	EXTANT STRUCT URE	An iron mine that commenced life as an openwork	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12607&resourceID=1020
MCO12 610	TREBELLAN - Post Medieval mine	Post Mediev	DOCUM ENTARY EVIDEN	A lead and silver producer that was part of Treworthie	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO12610&resourceID=1020
MCO5392 5	TRELASKE - Post Medieval accommodation bridge	Post Medieval	EXTANT STRUCTUR E	A bridge carrying the Treamble branch over a farm access.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO53925&resourceID=1020
MCO5392 6	TRELASKE - Post Medieval accommodation bridge	Post Medieval	EXTANT STRUCTUR E	A bridge carrying the Treamble branch over a farm access.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO53926&resourceID=1020
MCO37 63	TRESAWSEN - Bronze Age barrow	Prehisto ric	DOCUM ENTARY EVIDEN	A barrow recorded by Thomas in 1851; no remains visible.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3763&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO17688	TRESAWSEN - Early Medieval settlement, Medieval settlement	Early Medieval	DOCUMENTARY EVIDENCE	The settlement of Tresawsen is first recorded in 1301.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO17688&resourceID=1020
MCO8732	TRESAWSEN - Iron Age round, Romano British round, Medieval plain an gwarry	Prehistoric	EXTANT STRUCTURE	The ploughed out remains of a round with the eastern part standing to 1.0m high under a modern hedge and the western part visible as a cropmark on air photos.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO8732&resourceID=1020
MCO25 185	TRESAWSEN - Medieval field system	Medieval	DOCUMENTARY EVIDENCE	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO25185&resourceID=1020
MCO31924	TRESAWSEN - Medieval field system, Post Medieval field system	Medieval	CROPMARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO31924&resourceID=1020
MCO28 603	TRESAWSEN - Medieval leper hospital	Medieval	DEMOLISHED STRUCTURE	The site of a lazar house at Tresawsen.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO28603&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO31 923	TRESAWSEN - Medieval ridge and furrow	Mediev al	CROPM ARK	Null	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO31923&resourceID=1020
MCO39 817	TRESAWSEN - Prehistoric artefact scatter	Prehisto ric	FIND	A bun-shaped rubber was discovered on Tresawsen round in 2001.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO39817&resourceID=1020
MCO35 280	TRESAWSEN - Prehistoric findspot	Prehisto ric	FIND	Two beach-flint scrapers found in the field containing Tresawsen Round after ploughing.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO35280&resourceID=1020
MCO17874	TREVELLANCE - Early Medieval settlement, Medieval settlement	Early Medieval	DOCUMENTA RY EVIDENCE	The settlement and manor of Trevellance is first recorded in 1303.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO17874&resourceID=1020
MCO8794	TREVELLANCE - Iron Age round, Romano British round	Prehistoric	DOCUME NTARY EVIDENCE	The field-name 'Round Field' suggests the site of a round but the site lies on a floodplain.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO8794&resourceID=1020

Evidence Base: Heritage Assets

Ref	Name	Period	Form	Summary	Link to further information
MCO8795	TREVELLANCE - Iron Age round, Romano British round	Prehistoric	DOCUMENTARY EVIDENCE	The field-name 'Round Field' suggests the site of a round but there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO8795&resourceID=1020
MCO10330	TREVELLANCE - Medieval chapel	Medieval	DOCUMENTARY EVIDENCE	The field-name 'Old Church Croft' possibly suggests the site of a chapel but there are no remains.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO10330&resourceID=1020
MCO11569	TREVELLANCE - Medieval house, Post Medieval house	Medieval	DOCUMENTARY EVIDENCE	Trevellance was a manor house in the C15 belonging to William Trefusis, but there are no remains of the medieval building.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO11569&resourceID=1020
MCO29105	TREVELLANCE - Post Medieval bone mill	Post Medieval	DOCUMENTARY EVIDENCE	A bone mill is depicted on the Tithe Map of 1841 and on the 1st Edition OS map of c1880	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO29105&resourceID=1020
MCO3819	TREVELLAS DOWNS - Bronze Age barrow	Prehistoric	DEMOLISHED STRUCTURE	The site of a barrow, one of a group of seven or eight on Trevellas Downs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3819&resourceID=1020
MCO3820	TREVELLAS DOWNS - Bronze Age barrow	Prehistoric	EXTANT STRUCTURE	One of a group of seven or eight barrows on Trevellas Downs.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO3820&resourceID=1020

Ref	Name	Period	Form	Summary	Link to further information
MCO48663	TREVISSOME - Post Medieval milestone	Post Mediev	EXTANT STRUCTURE	A milestone,C18, survives approx 370m NE of Trevissome on the A30 - inscription defaced, but possible was Redruth 5 Lands End 33.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO48663&resourceID=1020
MCO11601	TREVITHICK - Early Medieval settlement, Medieval settlement	Early Medieval	DOCUMENTARY EVIDENCE	The settlement of Trevithick is first recorded in 1290 when it is spelt "Trevythic".	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO11601&resourceID=1020
MCO11650	TREWORTHEN - Early Medieval settlement, Medieval settlement	Early Medieval	DOCUMENTARY EVIDENCE	The settlement of Treworthen is first recorded in 1284 when it is spelt "Treworyn".	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO11650&resourceID=1020
MCO11649	TREWORTHEN - Medieval house, Post Medieval house	Medieval	DEMOLISHED STRUCTURE	The present settlement of Treworthen is said to stand in the location of a manor house.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO11649&resourceID=1020
MCO29116	TREWORTHEN MILL - Post Medieval corn mill	Post Medieval	DOCUMENTARY EVIDENCE	Treworthen Mill was for sale in 1831 (b1) and is recorded on the Tithe map of 1841.	http://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MCO29116&resourceID=1020

Evidence Base: Heritage Assets

Appendix 2: Projects – Local List

The need for a Local List, recording all heritage assets valued by the community which are not otherwise protected by another mechanism, was identified in the consultation stage of the NDP process and an initial selection of assets collated. Covid 19 restrictions precluded the community led input which is requited for such a project, as such it is included within the NDP Projects list and until such a time as they are covered by any other Policy or deisngaiton (some may be suitable candidates for Listing) the assets on it are protected under HAE1. Heritage Assets and the Historic Environment, HAE3. Conservation Areas and none designated historic settlements, HAE4. Historic landscape character, and HAE9. Newly Identified Heritage Assets and Archaeological Remains.

This initial list is included here as a reference and basis for development of the full gazetteer in Table 7.

Evidence Base: Heritage Assets

Table 7: Local List initial examples

Id	Name & Location	Description including key features of value
	Perranporth	
PP1	Tamblyn Way Droskyn cliff between 	Subject of the Parish Council's Time and Tide project. Perranporth has been well known for many years as a family tourist destination but more recently there has been an upsurge in interest in Cornwall's heritage from visitors and residents alike. The County's economy has relied on Agriculture, Fishing and Mining in the past but many remnants of that history have been destroyed. One existing remnant is now known as Tamblyn Way and for many years the pathway was part of the SW coastal path until it was diverted into Perranporth and the Parish Council was forced to close the route due to safety issues. There was a considerable outcry from members of the public when it was closed as it provided a more direct access to the beach for a large percentage of the population and the diverted coast path required people walking on Cliff Hill into Perranporth on a narrow road which is only partly provided with a pavement. Droskyn Cliffs are honeycombed with shafts and galleries, evidence of the mining heritage of the area although frequently mistaken for natural caves. The access was originally created and used by local fishermen for centuries. The Seine boats were pulled up onto the beach and moored to iron rings on the rocks below as there was no suitable place location for a harbour. The rings are frequently visible at low tide. Tamblyn Way was a relatively flimsy and dangerous construction and was replaced by a more substantial structure in the mid 1800's and repairs carried out in the 1890's, funded by Perranporth Street Lighting Committee (which years later became Perranporth Gardens Charities),. In 1974 Tamblyn Way was rebuilt and named after a prominent resident and Parish Councillor. The location of Tamblyn Way is relatively sheltered and the Parish Council is anxious not to lose one of the few remnants of social history left in the parish but any replacement would require highly engineered and costly designs due to the erosion of the cliffs but the replacement of Tamblyn Way has strong support from the public.
	Goonhavern	
GH1	The Old Forge Goonhavern 	

Evidence Base: Heritage Assets

Id	Name & Location	Description including key features of value
GH2	A30 north of Goonhavern village centre SW7889553788 	Listed Grade II C19 Nonconformist chapel with predating schoolroom probably original chapel, exterior largely as built, interior unaltered with panelled front gallery and ceiling details typical of Methodist chapels of the period.
GH3	The New Inn 	
GH4	Water Shute stone marker between Little Meadows and the garden centre 	
GH5	The remains of Goonhavern Halt	
GH6	Village school SW78775383	Listed Grade II 1876 Original E shaped plan unchanged, good example of late Victorian Gothic style village Board School.
